Dear Father Brown:

Among the various persons who consult you, there may well be those who are engaged in unmanageable sexual behavior. As part of our 12-Step Work, we of Sexaholics Anonymous would like to offer our support in your efforts to assist these people.

As an international group based solidly upon the 12-Steps and Traditions of Alcoholics Anonymous for well over two decades, we have been blessed with some degree of success in working toward sexual sobriety.

Our definition of such sobriety is probably similar to that of your own tradition; i.e., we seek to avoid sexual activity, whether alone or with others, outside of heterosexual marriages.

If you and your colleagues would like to refer anyone experiencing difficulties with sexual compulsions, please feel free to have them contact our hotline at 212-459-4044, or, if they desire, they may call our National SA Office in Nashville Tennessee at 615-331-6230.

Should you desire further information in addition to the enclosed brochure, please contact us at the above hotline as to the possibility of attending an open meeting of SA.

We would further appreciate it if you would widely disseminate this information to the appropriate colleagues who could use it in their work.

Thank you for helping us maintain our own sexual sobriety by assisting others to do the same.

Peace,

Romano F.
