F. very talkative & friendly on trips to N.Y. by rail. Seemed to be very much in control, Filled up when we reached Trinity.

In speaking to F. he remembered going to Redacted - Conf. Med. Recs. for 1/2 weeks - remembers Redacted - Conf. Med. Recs. thinks Rod Dwyer was the contact person - he met with him and Rod asked how he was doing and that was it. Bishop (before then resigned him), He swore that he never touched private parts - he went after physical closeness.

Called W-005 - brought him up to date regarding F. D. - he's reading about all kinds of abuse and feels very sorry for all of them. Wants to undergo psychiatric counselling to uncover what happened in Virginia. It's not clear to him and thinks that it would be important to get at it. Money won't help - this might.
