

3-1-91

met with Frank DeLuca

He was prepared with his medical report. He has undergone extensive testing and the results will be discussed on March 12th. He seems to be suffering anxiety attacks during Mass which cause him panic which necessitates his having to sit down lest he faint or pass out.

He figured I was coming to offer him something for the Spring.

After I asked him for complete confidentiality, I outlined our request to help at St. Elizabeth's. [Redacted - Non-Resp]

[Redacted - Non-Resp] Frank wondered if John O'Brien would be open to him. Still he wanted to hold his answer until he meets with the doctor on March 12th.
